Sun-Root Living Roof

By Kat Harrold GRP, Jörg Breuning, Andrew Cole Yanders

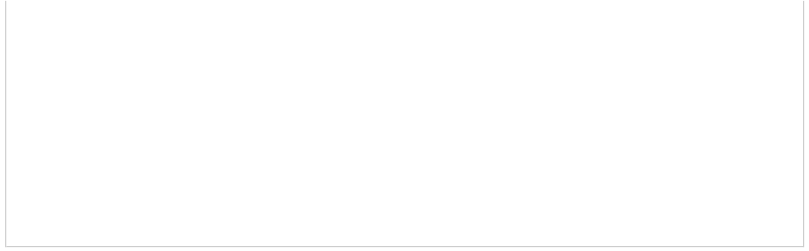

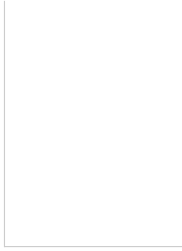

Sun-Root Living Roof System

'Sun-Root' solar-living roof system, the first fully integrated, non-penetrative solar and extensive green roof system in North America. The 'Sun-Root' living roof system is the most advanced green roofing technology available on the market.

The Unheard Conversation Between God and Noah

The Chimes Solar Plan Needs a Better Location

The Chimes is an admirable organization whose commitment to cleaner, renewable energy should be above repute. Every intention in The Chimes' plan is correct, except for the location of the solar panels.

Plant of the Month

Sedum kamtschaticum is a hardy evergreen sedum great for extensive to semi-intensive green roofs. Find out more about the many benefits of this green roof plant!
